Keeping Information Collection Simple

Allowing you to move and store data electronically, KICS will make it easy for you to replace just about any paper form in your organization. By replacing paper with an electronic alternative, you save significant time on data entry and also realize substantial cost and space saving.

KICS also gives you the power to organize an online paperless workflow process created and managed by you—which means any changes to your forms can be made without the assistance and cost of a programmer.

Provide staff, clients or the public with the convenience of submitting all of your forms electronically. KICS' Directory Authentication (LDAP or ADFS) will also allow your employees to sign in using their company credentials.

Contact us today for more information and a demonstration of KICS' many features.
